1. KNOJ frontier formations have, for some months, been called "Graniconi Odsek". The following information has been reported about the various units:

Unit	Remarks
1st Graniconi Odsek (Brigade)	Hqs at Kranj (RD23)
2nd Graniconi Odsek (Battalion)	Murska Sobota (RE68)
4th Graniconi Odsek (Battalion)	Radkersburg (RE59) area
7th Graniconi Odsek	Formerly the 3rd KNOJ Brigade. This formation has retained the officers of the 3rd KNOJ Brigade, but the EMs have been transferred to the south and have been replaced by Serb troops of the Serbian KNOJ Brigade. Equipment: Soviet light MGs and Soviet machine pistols (type with drum magazine containing 72 rounds). A few training companies have anti-tank guns of 75 or 87 mm; each company has two guns.
3rd Graniconi Odsek (Battalion)	Manning the frontier post at Rabenstein (RD78); formed from the 3rd Battalion of the 3rd KNOJ Brigade

2. A barbed wire fence is being erected in the Dravograd (RD77) area, not continuously, but only in places where control is otherwise difficult. The installation of this wire has not been completed, but wire is being brought up, and trees have been felled. Dogs are used to assist patrols. There are no signs of any special prohibited frontier zone in the Rabenstein area.
